

Listening to K-love everyday for me,I found, brings God into my home. I have become a reborn Christian because of their inspiration. I feel it transform people. In these times it is nice to hear a station that does NOT contain smut from the DJs and offensive language from the music like most stations. My children love the station and love the music. It would be sad if the community had to go back to listening to these other stations. I know if K-Love was not available I probably would just stop listening to the radio all together. I feel others feel the same way too. I'm a 41 years old, I have to say not even in my day did we have such music. I am shocked and appalled at the youth today, singing about sex acts like they are just drinking a glass a water. Maybe we need to promote something different and show how that kind of music is not good to influence the younger children. My children are 4 1/2 and 1 1/2 yrs old. They are young but amazingly they get upset if they can't hear K-Love. So pure in heart they already know what is good and bad. Something to ponder about. Thank you for allowing me to give my comment. I hope you consider not changing this station.
